Is the Only Place in British Columbia
Where You Can

BUY GOOD GOODS CHEAP.

It is no use talking, we don't make the public believe that we are selling goods below cost, but I venture to say that there is no place in British Columbia where goods are sold at the price at which we are selling; and we don't intend to mislead our customers and the public at large by advertisements, or with newspapers, but it is a well known fact, from the first day we came here, that we established prices that have never been known in British Columbia before. No matter what my competitors may say, we intend to stay with our motto, "quick sales and small profits." Our expenses are small and we buy our goods for nett cash. And we don't believe in fancy prices. One glance at our stock and prices will convince you
